What is Creative Commons?

Resources
that are
**freely
accessible**

Resources that you and
your students can **legally**
copy, modify and reuse

Why does it matter?

We teach in an
environment that is rich
in resources

Digital
technologies have
revolutionised how
creative works are
made, distributed,
and used.

BUT what
about

Copyright

**Copyright means that
someone still “owns”
most of the resources
on the internet**

Everyday we (and our students)

Use

Movies
Pictures
Music
Text

from the internet

Some easy steps we can take

- Discuss ownership in a digital environment
- Introduce students to creative commons
- Use creative commons search engines - set this as your home page?
